Subject Index

Acoustic emission
Cochlear distortion; Nonlinearity; Hair cell motility (Brown, A.M. (70) 160)

Acoustic middle-ear reflex
Pure-tone exposure; $2f_1-f_2$ distortion-product emissions; Temporary-threshold shift; Susceptibility; Resistance; Rabbit (Mensh, B.D. (70) 50)

Acoustic pathways
Auditory brainstem; Superior olive; Retrograde labeling; Anterograde labeling; Immunocytochemistry (Vetter, D.E. (70) 173)

Acoustic trauma
Human cochlea; Otoacoustic emissions (Avan, P. (70) 109)

Aging
Auditory brainstem response (ABR); *Mycoplasma pulmonis*; Otitis media; Rat (Campbell, D.G. (70) 127)

Animal model
Tympanic membrane; Moire interferometry; Shape; Displacement; Mechanical properties; Elasticity (Von Unge, M. (70) 229)

Anterograde labeling
Auditory brainstem; Acoustic pathways; Superior olive; Retrograde labeling; Immunocytochemistry (Vetter, D.E. (70) 173)

Anuran
Frog; Evoked potential; Auditory brainstem response; Temperature; Dehydration (Carey, M.B. (70) 216)

Auditory
Bird; Vestibular; Hair cells; Hair-cell regeneration; Organ cultures (Oesterle, E.C. (70) 85)

Deafferentation; Oxidative metabolism; Cochlear nucleus (Durham, D. (70) 151)

Auditory brainstem
Acoustic pathways; Superior olive; Retrograde labeling; Anterograde labeling; Immunocytochemistry (Vetter, D.E. (70) 173)

Autoradiographic technique; [^{14}C]-2-deoxyglucose; Metabolic activity; Deafness; Electrical stimulation; Implant (Schwartz, D.R. (70) 243)

Auditory brainstem response
Frog; Anuran; Evoked potential; Temperature; Dehydration (Carey, M.B. (70) 216)

Auditory brainstem response (ABR)
Aging; *Mycoplasma pulmonis*; Otitis media; Rat (Campbell, D.G. (70) 127)

Auditory diseases
Endolymphatic sac; Menière's disease; Cochlea; Taurine; Calcium (Horner, K.C. (70) 1)

Auditory nerve
Guinea pig; Tetrodotoxin; Cochlea; Synapse flattening (Brown, J.N. (70) 167)

Auditory system
Hair cell; Autofluorescence; Flavins; Goldfish; Formaldehyde (Sewell, W.F. (70) 131)

Autofluorescence
Hair cell; Auditory system; Flavins; Goldfish; Formaldehyde (Sewell, W.F. (70) 131)

Autoradiographic technique
[^{14}C]-2-deoxyglucose; Metabolic activity; Deafness; Electrical stimulation; Auditory brainstem; Implant (Schwartz, D.R. (70) 243)

Biological rhythms
Otoacoustic emissions; Time series analysis; Cochlear metabolism; Menstrual cycle (Haggerty, H.S. (70) 31)

Bird
Auditory; Vestibular; Hair cells; Hair-cell regeneration; Organ cultures (Oesterle, E.C. (70) 85)

Calbindin
Hair cell; Calcium; Calsequestrin; Calmodulin; Caldesmon; Pyroantimonate (Slepecky, N.B. (70) 73)

Calcium
Endolymphatic sac; Menière's disease; Cochlea; Auditory diseases; Taurine (Horner, K.C. (70) 1)

Hair cell; Calsequestrin; Calmodulin; Caldesmon; Calbindin; Pyroantimonate (Slepecky, N.B. (70) 73)

Hair cells; Electron-probe analysis; Ion transport; Magnesium (Mroz, E.A. (70) 139)

Caldesmon
Hair cell; Calcium; Calsequestrin; Calmodulin; Calbindin; Pyroantimonate (Slepecky, N.B. (70) 73)

Calmodulin
Hair cell; Calcium; Calsequestrin; Caldesmon; Calbindin; Pyroantimonate (Slepecky, N.B. (70) 73)

Calsequestrin
Hair cell; Calcium; Calmodulin; Caldesmon; Calbindin; Pyroantimonate (Slepecky, N.B. (70) 73)

[^{14}C]-2-deoxyglucose
Autoradiographic technique; Metabolic activity; Deafness; Electrical stimulation; Auditory brainstem; Implant (Schwartz, D.R. (70) 243)

Cell isolation
Hair cells; Ion composition; Electron-probe analysis; Culture media (Mroz, E.A. (70) 9)

Cell volume
Hair cells; Ion transport; Sodium-potassium ATPase; Electron-probe analysis; Ménière's disease (Mroz, E.A. (70) 22)

Cochlea
Endolymphatic sac; Menière's disease; Auditory diseases; Taurine; Calcium (Horner, K.C. (70) 1)

Gerbil; Otoacoustic emissions; Electrically-evoked emissions; Hearing (Xue, S. (70) 121)

Guinea pig; Tetrodotoxin; Auditory nerve; Synapse flattening (Brown, J.N. (70) 167)

Cochlear distortion
Acoustic emission; Nonlinearity; Hair cell motility (Brown, A.M. (70) 160)

Cochlear implant
Ototoxicity; Nephrotoxicity; Hearing loss; Ethacrynic acid; Kanamycin (Xu, S.-A. (70) 205)

Cochlear metabolism
Otoacoustic emissions; Time series analysis; Menstrual cycle; Biological rhythms (Haggerty, H.S. (70) 31)

Cochlear nucleus
Deafferentation; Oxidative metabolism; Auditory (Durham, D. (70) 151)

Conductance
Endocochlear potential; Endolymph; Perilymph; Permeability (Komune, S. (70) 197)

Culture media
Hair cells; Ion composition; Electron-probe analysis; Cell isolation (Mroz, E.A. (70) 9)

Deafferentation
Oxidative metabolism; Auditory; Cochlear nucleus (Durham, D. (70) 151)

Deafness
Autoradiographic technique; [^{14}C]-2-deoxyglucose; Metabolic activity; Electrical stimulation; Auditory brainstem; Implant (Schwartz, D.R. (70) 243)

Dehydration
Frog; Anuran; Evoked potential; Auditory brainstem response; Temperature (Carey, M.B. (70) 216)

$DiOC_6$
Outer hair cell; Subsurface cisternae; C_6-NBD-Ceramide; Golgi apparatus; Endoplasmic reticulum (Pollice, P.A. (70) 187)

Displacement
Tympanic membrane; Animal model; Moire interferometry; Shape; Mechanical properties; Elasticity (Von Unge, M. (70) 229)

Elasticity
Tympanic membrane; Animal model; Moire interferometry; Shape; Displacement; Mechanical properties (Von Unge, M. (70) 229)

Electrically-evoked emissions
Gerbil; Otoacoustic emissions; Hearing; Cochlea (Xue, S. (70) 121)

Electrical stimulation
Autoradiographic technique; [^{14}C]-2-deoxyglucose; Metabolic activity; Deafness; Auditory brainstem; Implant (Schwartz, D.R. (70) 243)

Electron-probe analysis
Hair cells; Ion composition; Culture media; Cell isolation (Mroz, E.A. (70) 9)

Hair cells; Cell volume; Ion transport; Sodium-potassium ATPase; Ménière's disease (Mroz, E.A. (70) 22)

Hair cells; Ion transport; Calcium; Magnesium (Mroz, E.A. (70) 139)

Endocochlear potential
Endolymph; Perilymph; Permeability; Conductance (Komune, S. (70) 197)

Endolymph
Endocochlear potential; Perilymph; Permeability; Conductance (Komune, S. (70) 197)

Endolymphatic sac
Menière's disease; Cochlea; Auditory diseases; Taurine; Calcium (Horner, K.C. (70) 1)

Endoplasmic reticulum
Outer hair cell; Subsurface cisternae; C_6-NBD-Ceramide; $DiOC_6$; Golgi apparatus (Pollice, P.A. (70) 187)

Ethacrynic acid
Ototoxicity; Nephrotoxicity; Hearing loss; Kanamycin; Cochlear implant (Xu, S.-A. (70) 205)

Evoked potential
Frog; Anuran; Auditory brainstem response; Temperature; Dehydration (Carey, M.B. (70) 216)

$2f_1-f_2$ distortion-product emissions
Pure-tone exposure; Temporary-threshold shift; Susceptibility; Resistance; Acoustic middle-ear reflex; Rabbit (Mensh, B.D. (70) 50)

$2f_1-f_2$ distortion-product emissions
Pure-tone exposure; Noise exposure; Susceptibility; Rabbit (Mensh, B.D. (70) 65)

Flavins
Hair cell; Auditory system; Autofluorescence; Goldfish; Formaldehyde (Sewell, W.F. (70) 131)

Formaldehyde
Hair cell; Auditory system; Autofluorescence; Flavins; Goldfish (Sewell, W.F. (70) 131)

Frog
Anuran; Evoked potential; Auditory brainstem response; Temperature; Dehydration (Carey, M.B. (70) 216)

Gerbil
Otoacoustic emissions; Electrically-evoked emissions; Hearing; Cochlea (Xue, S. (70) 121)

Goldfish
Hair cell; Auditory system; Autofluorescence; Flavins; Formaldehyde (Sewell, W.F. (70) 131)

Golgi apparatus
Outer hair cell; Subsurface cisternae; C_6-NBD-Ceramide; $DiOC_6$; Endoplasmic reticulum (Pollice, P.A. (70) 187)

Guinea pig
Tetrodotoxin; Cochlea; Auditory nerve; Synapse flattening (Brown, J.N. (70) 167)

Hair cell
Calcium; Calsequestrin; Calmodulin; Caldesmon; Calbindin; Pyroantimonate (Slepecky, N.B. (70) 73)

Auditory system; Autofluorescence; Flavins; Goldfish; Formaldehyde (Sewell, W.F. (70) 131)

Hair cell motility
Cochlear distortion; Acoustic emission; Nonlinearity (Brown, A.M. (70) 160)

Hair-cell regeneration
Bird; Auditory; Vestibular; Hair cells; Organ cultures (Oesterle, E.C. (70) 85)

Hair cells
Ion composition; Electron-probe analysis; Culture media; Cell isolation (Mroz, E.A. (70) 9)

Cell volume; Ion transport; Sodium-potassium ATPase; Electron-probe analysis; Ménière's disease (Mroz, E.A. (70) 22)

Bird; Auditory; Vestibular; Hair-cell regeneration; Organ cultures (Oesterle, E.C. (70) 85)

Electron-probe analysis; Ion transport; Calcium; Magnesium (Mroz, E.A. (70) 139)

Ion transport; Permeability; pH regulation (Mroz, E.A. (70) 146)

Hearing
Gerbil; Otoacoustic emissions; Electrically-evoked emissions; Cochlea (Xue, S. (70) 121)

Hearing loss
Ototoxicity; Nephrotoxicity; Ethacrynic acid; Kanamycin; Cochlear implant (Xu, S.-A. (70) 205)

pH regulation
Hair cells; Ion transport; Permeability (Mroz, E.A. (70) 146)

Human cochlea
Otoacoustic emissions; Acoustic trauma (Avan, P. (70) 109)

Immunocytochemistry
Auditory brainstem; Acoustic pathways; Superior olive; Retrograde labeling; Anterograde labeling (Vetter, D.E. (70) 173)

Implant
Autoradiographic technique; [^{14}C]-2-deoxyglucose; Metabolic activity; Deafness; Electrical stimulation; Auditory brainstem (Schwartz, D.R. (70) 243)

Ion composition
Hair cells; Electron-probe analysis; Culture media; Cell isolation (Mroz, E.A. (70) 9)

Ion transport
Hair cells; Cell volume; Sodium-potassium ATPase; Electron-probe analysis; Ménière's disease (Mroz, E.A. (70) 22)

Hair cells; Electron-probe analysis; Calcium; Magnesium (Mroz, E.A. (70) 139)

Hair cells; Permeability; pH regulation (Mroz, E.A. (70) 146)

Kanamycin
Ototoxicity; Nephrotoxicity; Hearing loss; Ethacrynic acid; Cochlear implant (Xu, S.-A. (70) 205)

Magnesium
Hair cells; Electron-probe analysis; Ion transport; Calcium (Mroz, E.A. (70) 139)

Mechanical properties
Tympanic membrane; Animal model; Moire interferometry; Shape; Displacement; Elasticity (Von Unge, M. (70) 229)

Menière's disease
Endolymphatic sac; Cochlea; Auditory diseases; Taurine; Calcium (Horner, K.C. (70) 1)

Ménière's disease
Hair cells; Cell volume; Ion transport; Sodium-potassium ATPase; Electron-probe analysis (Mroz, E.A. (70) 22)

Menstrual cycle
Otoacoustic emissions; Time series analysis; Cochlear metabolism; Biological rhythms (Haggerty, H.S. (70) 31)

Metabolic activity
Autoradiographic technique; [^{14}C]-2-deoxyglucose; Deafness; Electrical stimulation; Auditory brainstem; Implant (Schwartz, D.R. (70) 243)

Moire interferometry
Tympanic membrane; Animal model; Shape; Displacement; Mechanical properties; Elasticity (Von Unge, M. (70) 229)

Mycoplasma pulmonis
Aging; Auditory brainstem response (ABR); Otitis media; Rat (Campbell, D.G. (70) 127)

C_6-NBD-Ceramide
Outer hair cell; Subsurface cisternae; $DiOC_6$; Golgi apparatus; Endoplasmic reticulum (Pollice, P.A. (70) 187)

Nephrotoxicity
Ototoxicity; Hearing loss; Ethacrynic acid; Kanamycin; Cochlear implant (Xu, S.-A. (70) 205)

Noise exposure
Pure-tone exposure; $2f_1$-f_2 distortion-product emissions; Susceptibility; Rabbit (Mensh, B.D. (70) 65)

Nonlinearity
Cochlear distortion; Acoustic emission; Hair cell motility (Brown, A.M. (70) 160)

Organ cultures
Bird; Auditory; Vestibular; Hair cells; Hair-cell regeneration (Oesterle, E.C. (70) 85)

Otitis media
Aging; Auditory brainstem response (ABR); *Mycoplasma pulmonis*; Rat (Campbell, D.G. (70) 127)

Otoacoustic emissions
Time series analysis; Cochlear metabolism; Menstrual cycle; Biological rhythms (Haggerty, H.S. (70) 31)

Human cochlea; Acoustic trauma (Avan, P. (70) 109)

Gerbil; Electrically-evoked emissions; Hearing; Cochlea (Xue, S. (70) 121)

Ototoxicity
Nephrotoxicity; Hearing loss; Ethacrynic acid; Kanamycin; Cochlear implant (Xu, S.-A. (70) 205)

Outer hair cell
Subsurface cisternae; C_6-NBD-Ceramide; $DiOC_6$; Golgi apparatus; Endoplasmic reticulum (Pollice, P.A. (70) 187)

Oxidative metabolism
Deafferentation; Auditory; Cochlear nucleus (Durham, D. (70) 151)

Perilymph
Endocochlear potential; Endolymph; Permeability; Conductance (Komune, S. (70) 197)

Permeability
Hair cells; Ion transport; pH regulation (Mroz, E.A. (70) 146)

Endocochlear potential; Endolymph; Perilymph; Conductance (Komune, S. (70) 197)

Pure-tone exposure
$2f_1-f_2$ distortion-product emissions; Temporary-threshold shift; Susceptibility; Resistance; Acoustic middle-ear reflex; Rabbit (Mensh, B.D. (70) 50)

Noise exposure; $2f_1$-f_2 distortion-product emissions; Susceptibility; Rabbit (Mensh, B.D. (70) 65)

Pyroantimonate
Hair cell; Calcium; Calsequestrin; Calmodulin; Caldesmon; Calbindin (Slepecky, N.B. (70) 73)

Rabbit
Pure-tone exposure; $2f_1-f_2$ distortion-product emissions; Temporary-threshold shift; Susceptibility; Resistance; Acoustic middle-ear reflex (Mensh, B.D. (70) 50)

Pure-tone exposure; Noise exposure; $2f_1$-f_2 distortion-product emissions; Susceptibility (Mensh, B.D. (70) 65)

Rat
Aging; Auditory brainstem response (ABR); *Mycoplasma pulmonis*; Otitis media (Campbell, D.G. (70) 127)

Resistance
Pure-tone exposure; $2f_1-f_2$ distortion-product emissions; Temporary-threshold shift; Susceptibility; Acoustic middle-ear reflex; Rabbit (Mensh, B.D. (70) 50)

Retrograde labeling
Auditory brainstem; Acoustic pathways; Superior olive; Anterograde labeling; Immunocytochemistry (Vetter, D.E. (70) 173)

Shape
Tympanic membrane; Animal model; Moire interferometry; Displacement; Mechanical properties; Elasticity (Von Unge, M. (70) 229)

Sodium-potassium ATPase
Hair cells; Cell volume; Ion transport; Electron-probe analysis; Ménière's disease (Mroz, E.A. (70) 22)

Subsurface cisternae
Outer hair cell; C_6-NBD-Ceramide; $DiOC_6$; Golgi apparatus; Endoplasmic reticulum (Pollice, P.A. (70) 187)

Superior olive
Auditory brainstem; Acoustic pathways; Retrograde labeling; Anterograde labeling; Immunocytochemistry (Vetter, D.E. (70) 173)

Susceptibility
Pure-tone exposure; $2f_1-f_2$ distortion-product emissions; Temporary-threshold shift; Resistance; Acoustic middle-ear reflex; Rabbit (Mensh, B.D. (70) 50)

Pure-tone exposure; Noise exposure; $2f_1$-f_2 distortion-product emissions; Rabbit (Mensh, B.D. (70) 65)

Synapse flattening
Guinea pig; Tetrodotoxin; Cochlea; Auditory nerve (Brown, J.N. (70) 167)

Taurine
Endolymphatic sac; Menière's disease; Cochlea; Auditory diseases; Calcium (Horner, K.C. (70) 1)

Temperature
Frog; Anuran; Evoked potential; Auditory brainstem response; Dehydration (Carey, M.B. (70) 216)

Temporary-threshold shift
Pure-tone exposure; $2f_1-f_2$ distortion-product emissions; Susceptibility; Resistance; Acoustic middle-ear reflex; Rabbit (Mensh, B.D. (70) 50)

Tetrodotoxin
Guinea pig; Cochlea; Auditory nerve; Synapse flattening (Brown, J.N. (70) 167)

Time series analysis
Otoacoustic emissions; Cochlear metabolism; Menstrual cycle; Biological rhythms (Haggerty, H.S. (70) 31)

Tympanic membrane
Animal model; Moire interferometry; Shape; Displacement; Mechanical properties; Elasticity (Von Unge, M. (70) 229)

Vestibular
Bird; Auditory; Hair cells; Hair-cell regeneration; Organ cultures (Oesterle, E.C. (70) 85)
